

FAISSAL MARZOUKI

STUDENT IN CYBERSECURITY AND DIGITAL TRUST

PROFILE

Cybersecurity engineering student with solid experience in web and mobile development, as well as system security. Specialized in secure infrastructure design, intrusion detection in IoT environments, and blockchain-based solutions. My versatile background combines programming, system administration, and network security. I am seeking an opportunity within an innovative organization to apply my skills while continuing to learn from experienced professionals.

PROFESSIONAL AND ACADEMIC PROJECTS

- 04/2025 - 06/2025 | Infrastructure Security Project - Engineering Coursework**
Enterprise Infrastructure Design & Security: Built a segmented virtual network with dual firewalls (pfSense/OPNsense), IDS/IPS (Zeek, Suricata), and deception systems (T-Pot honeypots). Configured access control, monitored traffic via Kibana dashboards, and validated firewall rules through internal penetration testing.
- 07/2024 - 08/2024 | Cybersecurity Internship - GM-Soft, Béni Mellal**
Bitcoin Transaction Simulation: Developed a blockchain simulation platform showcasing decentralized transactions.
- 03/2024 | Cybersecurity Workshop - CCICSC, Mohammedia**
Organized and led an awareness session on cybersecurity (phishing, password safety, social engineering)
- 04/2023 - 06/2023 | Technical Internship - GM-Soft, Béni Mellal**
F-Tracking: Backend development of a real-time fleet tracking software (Spring Boot, alerts, analytics).
- 01/2023 - 04/2023 | Final Year Project**
Allo Doctor: Mobile app for medical management (patient records, appointments, messaging).
